

Sunburst - Part 1

by Barbara Hartnett

Introduction

A **Sunburst** is a design which consists of rays or "beams" radiating out from a central disk as do sunbeams. Brighten your room with this shining new pattern by Barbara Hartnett, and create your own shining rays.

Be sure to join us in the **Sunburst** group on www.needlespot.com, a private online needle arts enthusiast community. There, you can get answers to any questions you might have, share your progress, and see what others are doing.

- TQPM
